Subject: Administrative Order

Council Chairman Landeche,

Thank you for contacting us about the Administrative Order on Consent for the DENKA facility in LaPlace, Louisiana. This Administrative Order was entered by the LDEQ, not EPA. I am copying LDEQ Secretary Brown on my response to you. He will be able to provide the most recent and accurate response to your request regarding compliance with the state-issued order. At the state's request, EPA is continuing to conduct air monitoring at six locations around the facility. The chloroprene monitoring results are posted publicly on our website at <https://www.epa.gov/la/laplace-louisiana-air-monitoring-data>.

Best,
David Gray
EPA
